Our eTwinning partners

Introduction

eTwinning is a collaborative platform that enables two or more schools from the European Union and/or member countries to work together and develop a project.

It offers an excellent opportunity for our students, as these projects combine different learning areas and the students put their knowledge and skills into practice in an innovative and creative way.

COLEGIO CONCERTADO BILINGÜE
Las Claras del Mar Menor

Aims

Improve their language competence

All the activities will be carried out in English, so our students will put their knowl into practice.

Develop their critical thinking and increase their cultural awareness

Students will analyze and reflect on their family dynamics and relationships. They will also learn and value other cultures' traditions.

Boost personal and social development

Students will share their personal experiences which will lead to promote their personal growth, empathy and interpersonal skills.

Digital tools

Our students will carry out different activities. They will create some presentations, infographics, videos, digital quizzes... and they will even write a digital book by using some digital tools.

Our eTwinning partners

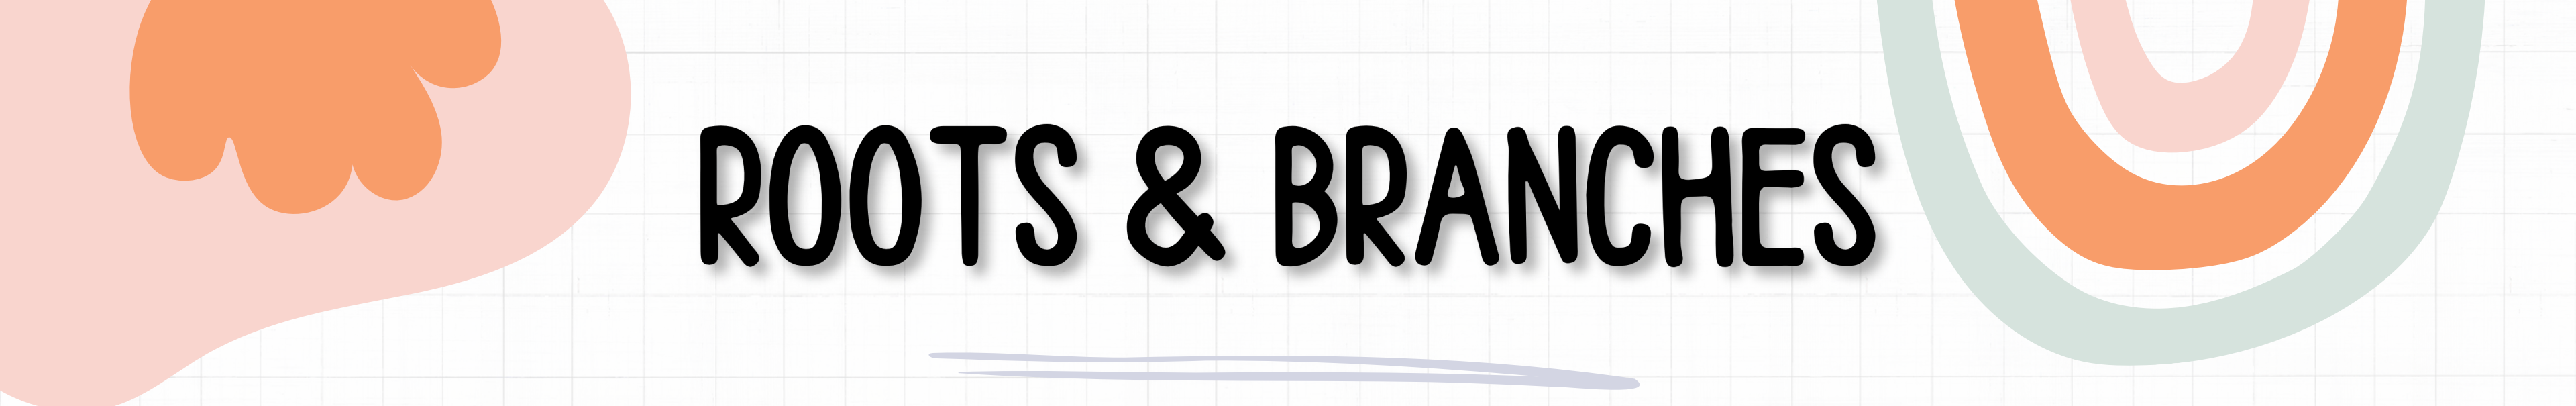

Our students will be organised in groups that will be matched to other groups from the school Piyalepaşa in Turkey. They will develop their activities in a collaborative way using the English language to communicate together and the TwinSpace platform as the main communication channel.
