- 5 ACTIVITIES AND TIMING
- 6 ETWINNING PARTNERS

INTRODUCTION OF THE PROJECTeTwinning

- eTwinning is a collaborative platform that enables two or more schools from the European Union and/or member countries to work together and develop a project.

- It offers an excellent opportunity for our students, as these projects combine different learning areas and the students put their knowledge and skills into practice in an innovative and creative way.

AIMs

Improve their language competence

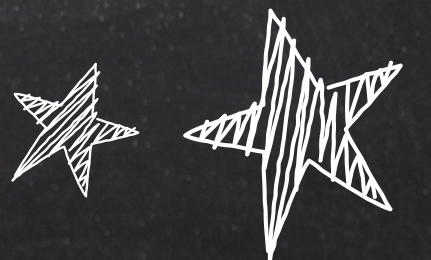

All the activities will be carried out in English, so our students will put their knowledge and their English skills into practice.

Develop their critical thinking and increase their cultural awareness

Students will analyze and reflect on their friends and family relationships based on culture. Moreover, they will be encouraged to be more assertive and improve their personal development.

Boost their digital competence

Students will be promoted to use several digital tools with the aim of becoming more acquainted with the ones that they don't know yet, and mastering the tools which are familiar to them.

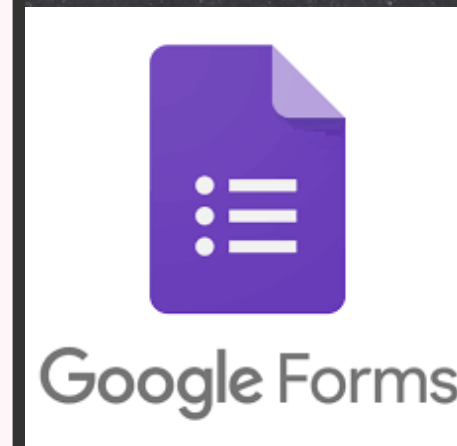

DIGITAL TOOLS

In this project, our students will carry out different activities and, to do them, they will have to use several digital tools to create some presentations, podcasts, write some texts... and even to create a digital book.

Besides, we will work collaboratively with our Austrian eTwinning partners through the eTwinning platform, TwinSpace.

Activities and timing

OCTOBER

"Growing up, now and then"

A story about how parents tend to bring up their children nowadays and how they used to do it in the past.

MID- NOVEMBER

"Beyond borders: A friend's story"

Let's describe a friend that we admire.

End of NOVEMBER

Does friendship last forever?

What do you think about friendship? Do you think it lasts forever?

DECEMBER

**"Our take on sharenting".
Do you agree or disagree?**

Let's discuss about "sharenting"

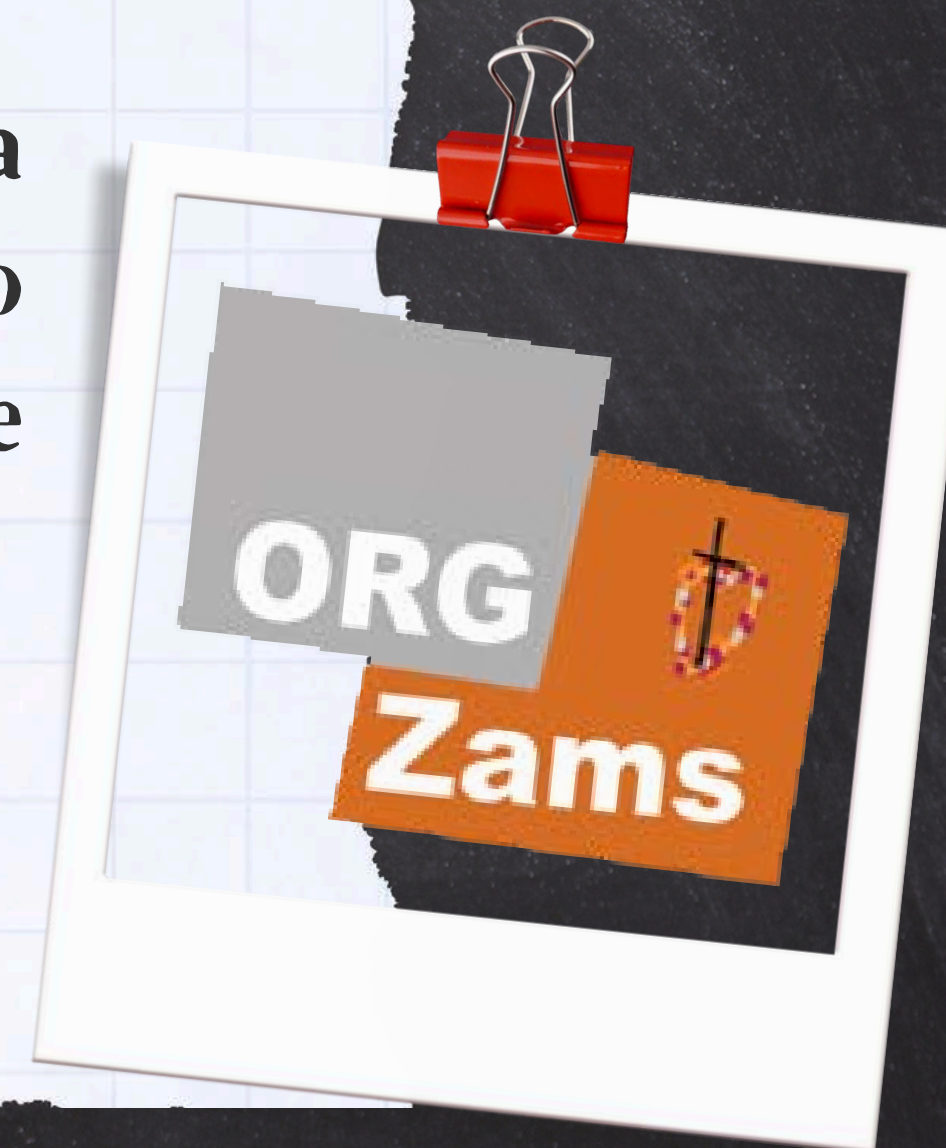

OUR ETWINNING PARTNERS

Our students will be organised in groups that will be matched to other groups from the ORG Zams in Austria.

They will develop their activities in a collaborative way using the English language to communicate together and the TwinSpace platform as the main communication channel.
